

# STEICO *Hardboard strips*

Hardboard strips for additional safety

- Additional fixing for air-injected installation when using membranes
- Additional fixing on rafter sides with up-and-over installation of STEICO *multi renova*
- Can be secured with staples

## Application area

- Securing the vapour barrier when using blown-in insulation material
- Securing the vapour barrier when renovating from the outside

## Technical data

Permanent temperature range [°C]	≤100
----------------------------------	------

## Forms of delivery

### Delivery in handy packages

Thickness [mm]	Edge profile	Length [mm]	Width [mm]	Number/pal. [pcs.]	Number/pack. [pcs.]
2,8	SE	1200	50	2800	25

## Weight and packing

### Delivery in handy packages

Thickness [mm]	Edge profile	Length [mm]	Width [mm]	Weight/pack. [kg]	Packaging/pack. Paper/cardboard (approx.) [kg]
2,8	SE	1200	50	5.00	0.50

# STEICO *Hardboard strips*

Hardboard strips for additional safety

## Notes

### Storage

- Protect from damage
- Store in a dry place
- Only remove packaging when the ambient climate is dry

### Ingredients

- Wood fibre

### Disposal

- Disposal of offcuts: Waste code (EWC / AVV) 170201/030105, disposal as wood and wood-based materials, waste wood category II
- Disposal after dismantling: Waste code (EWC / AVV) 170201/030105, disposal as wood and wood-based materials, waste wood category II

### Cutting

- Can be processed with wood-cutting tools
- Strip can be shortened by hand
- Can be assembled with a tacker

### Occupational health and safety

- The usual safety regulations for the processing of wood-based materials (see BGI 739-1 of the BG Wood and Metal)

### Building moisture

- Dry air must be ensured inside the building during the construction phase.
- Additional measures, such as the installation of drying equipment during the construction phase are recommended

## Installation

### Roof renovation from the inside:

- Attach Hardboard strips along the underside of the rafters to reinforce the vapour membrane for blown insulation. Screw down or staple

### Roof renovation from the outside:

- Attach hardboard strips to secure the vapour barrier to the rafter sides
- This document is based on the German technical data sheet and is intended for general information purposes in an international context. National regulations and building codes must be additionally observed.
