

STEICO SE FACT SHEET

STEICO develops, produces and markets ecological construction products made of renewable raw materials. STEICO is the global market leader for wood fiber insulation materials.

STEICO is positioned as a system provider for ecological residential construction and is the only manufacturer in the industry to offer an integrated wooden construction system in which innovative wooden construction components and ecological insulation material supplement each other. Laminated veneer lumber and I-joists form the structural components of the system. The insulation materials include flexible and stable wood fiber insulation panels, facade insulation materials, as well as cavity wall insulation made of wood fibers and cellulose.

Sealing products for the building shell complete the overall system.

The STEICO Group offers its customers a unique range of products through to the prefabrication of complete components for timber element construction.

The Munich-based company's products are used in new construction and when renovating roofs, walls, ceilings, floors and facades. STEICO's products allow the construction of future-proof, healthy buildings with a particularly high quality of living and a healthy atmosphere. STEICO's products offer reliable protection against cold, heat and also noise, and they permanently improve the building's energy efficiency.

MANAGING DIRECTORS

Mr. Udo Schramek (CEO)

Mr. Roger Fränkel (Investments)

Mr. Thorsten Leicht (Production)

Mr. Dr. David Meyer (Finance)

Mr. Tobias Schindler (Sales)

- 2007: IPO (OTC / M:access)
- 2008: Acquisition of production facility Casteljalous (France)
- 2011: Conversion to form STEICO SE
- 2016: Start of production for laminated veneer lumber
- 2017: 10% capital increase (from authorised capital)
- 2019: Start of production of prefabricated building elements

MARKET ENVIRONMENT

- The niche market for natural insulation materials is growing faster than the market as a whole. **Shift in demand** from conventional to environmentally friendly insulation materials. STEICO is the European market leader for wood fibre insulation materials.
- STEICO is the only company to offer an **integrated wooden construction system**, with wooden support structures and environmentally friendly insulation materials mutually supplementing each other. As a result STEICO is benefiting from the ongoing trend for environmentally friendly construction products.
- STEICO's production lines are used to produce construction materials and also a range of attractive products for

INVESTMENT STORY

- **Leading system provider** for environmentally friendly construction products in a dynamic market environment.
- **Cost and performance leader** thanks to high-performance, integrated, cost-efficient production locations.
- **Excellent perspectives:** STEICO is one of the most innovative companies and has the most extensive product range in the industry.
- **Attractive market:** Increasing requirements for energy efficiency in the construction sector and a constantly growing market for wooden construction.
